Objective

I'm a highly skilled and motivated Frontend Developer with 4 years of experience in creating innovative and responsive web applications. Passionate about crafting user-friendly interfaces and optimizing website performance.

- I develop and maintain scalable, responsive, and high-performance web applications using modern frameworks and technologies.
- I can collaborate with UI/UX designers, backend developers, and product managers to translate design concepts into functional user interfaces.
- I can optimize the application for maximum speed, performance, and cross-browser compatibility.
- I can ensure the technical feasibility of UI/UX designs, making recommendations for improvement where necessary.
- I have good project management skills.
- I have a knack for troubleshooting.
- I have knowledge of performance testing of frameworks with tools like Jest and so on.
- Always look out for the latest trends and technology, and best practices for frontend development.
- I can write clean, maintainable, and reusable code while adhering to coding standards and best practices.

Skills

- **Programming Languages:** HTML5, CSS3, Typescript, JavaScript (ES6+)
- **Frameworks/Libraries:** React.js, Next.js, Vite.
- **Responsive Web Design**
- **Frontend Build Tools:** Webpack, Babel
- **Version Control:** GitHub
- **Cross-Browser Compatibility**
- **UI/UX Design Principles**
- **RESTful API Integration**
- **Web Performance Optimization**
- **Agile/Scrum Methodologies**
- **Problem-Solving and Debugging**
- **TailwindCSS**
- **Redux Toolkits**
- **Vercel**
